

QUESTION:

What is the Largest size that the Lodge has ever been? - F.J.

The Lodge reach a high of 2150 Members in the mid 1980's. This was due in large part to a Lodge Vice Chief by the name of Clark King several years earlier who managed to get 42% of the units in the council to hold an election for Candidates. This high rate has never been equally since that time. This established a trend that started the growth of the lodge to this point. At this time the lodge was the 3rd largest in the country. Approximately 75% of that membership was youth.
